

unbook

```
graph LR; A[unbook] --> B[EventArr::unbook]
```

A diagram showing a mapping from a function name to a qualified name. On the left, a gray rectangular box contains the text 'unbook'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'EventArr::unbook'.

EventArr::unbook
